

Fast Start Deployment

Pre-defined design & implementation services that get your Cisco Security solution deployed quickly and correctly. A proven four-phase methodology, delivered remotely by ModernCyber's Cisco Security specialists — with a Solution Design Document your team keeps, updated to as-built at close.

Pre-defined scope

Remote delivery

As-built design document

HOW IT WORKS

From kickoff to knowledge transfer — your requirements drive the design, and you formally accept it before we build.

ELIGIBLE CISCO SECURITY SOLUTIONS

Identity Services
Engine (ISE)

Secure Access

Secure Firewall

XDR

Secure Endpoint

Secure Workload

AI Defense

**Order direct, through your preferred partner, or
via the Cisco Global Price List (GPL/MINT):**
Cisco account teams receive quota credit on MINT orders.

SERVICE SCOPE

Kickoff & Information Gathering — engagement overview, points of contact & service schedule; review of existing designs, configurations & SOPs; business, technical & operational requirements captured in a draft Solution Design Document.

Planning & Design — design workshop to review requirements and confirm high & low-level design details; Solution Design Document (SDD) created and formally accepted by your team before build.

Configuration & Testing — solution built, configured & deployed per the accepted SDD; configuration verified via a structured, agreed-upon test plan per use case.

Demonstration & Knowledge Transfer — 1-2 hour demonstration & closeout reviewing design, configuration & outcomes; knowledge transfer and handoff of the production environment to your team.

DELIVERABLES

- All work described in the service scope
- Solution Design Document — delivered during the design phase and again at close, updated with final as-built configuration

GOOD TO KNOW

- Delivered remotely during normal business hours (Mon-Fri, 9-5 your local time)
- You provide a designated point of contact, remote network access, and all requirements & use cases prior to design acceptance
- Changes after design acceptance are handled via change request; physical racking & connectivity and travel & expenses are not included
